

Remove media from a channel

 This article is designated for all users.

Removing media from a channel is done by unpublishing the media from the channel.

In this guide, we'll demonstrate both V2UI and Theming Feature Set styles. To learn how to upgrade your site to the Theming Feature Set, visit [Theming](#).

 For **Theming Feature Set**, removing the media from a channel is currently available via the media page as demonstrated [below](#). Adding this feature to the channel is something we are actively working on.

Instructions for V2UI

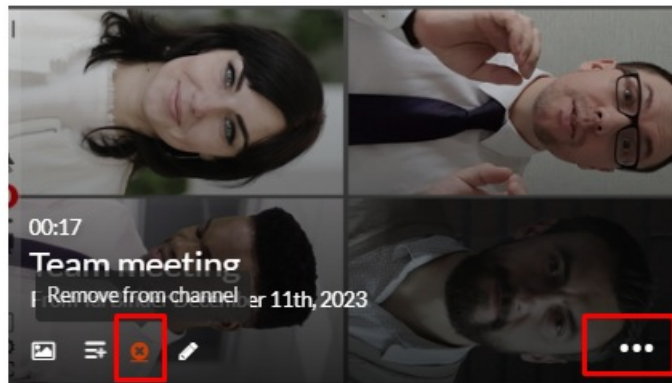

1. Login to your Video Portal (aka MediaSpace), and select **My Channels** from the user menu .

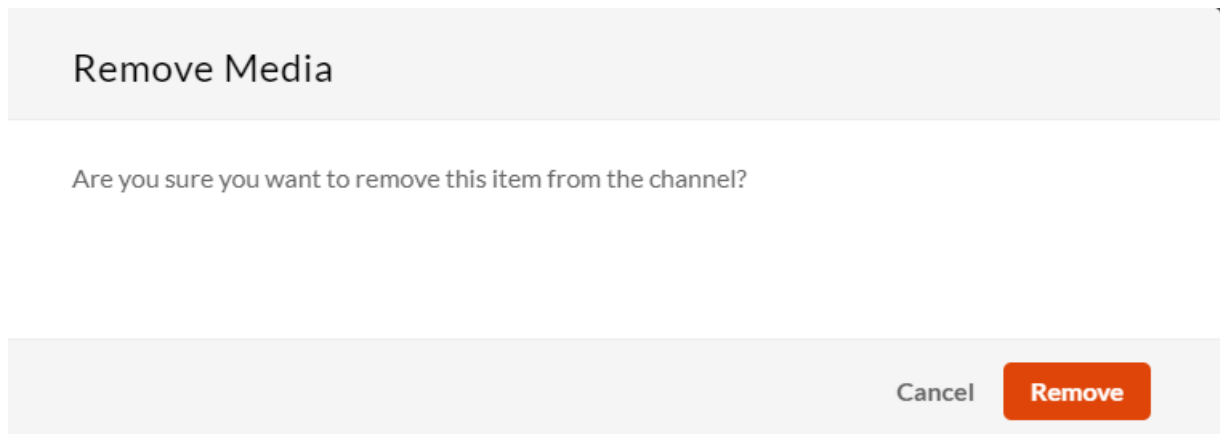

2. Click on a thumbnail to open the desired Channel. The **Channel** page displays.

- Click the **3 dots** icon on the lower right side of the media item you want to remove and click the **Remove from Channel (X)** button.

- Click **Remove** to confirm the deletion.

Instructions for Theming

- Login to your Video Portal (aka MediaSpace) and select **My Channels** from the user menu .

The **My Channels** page displays.

Sort By: Media Count ▾

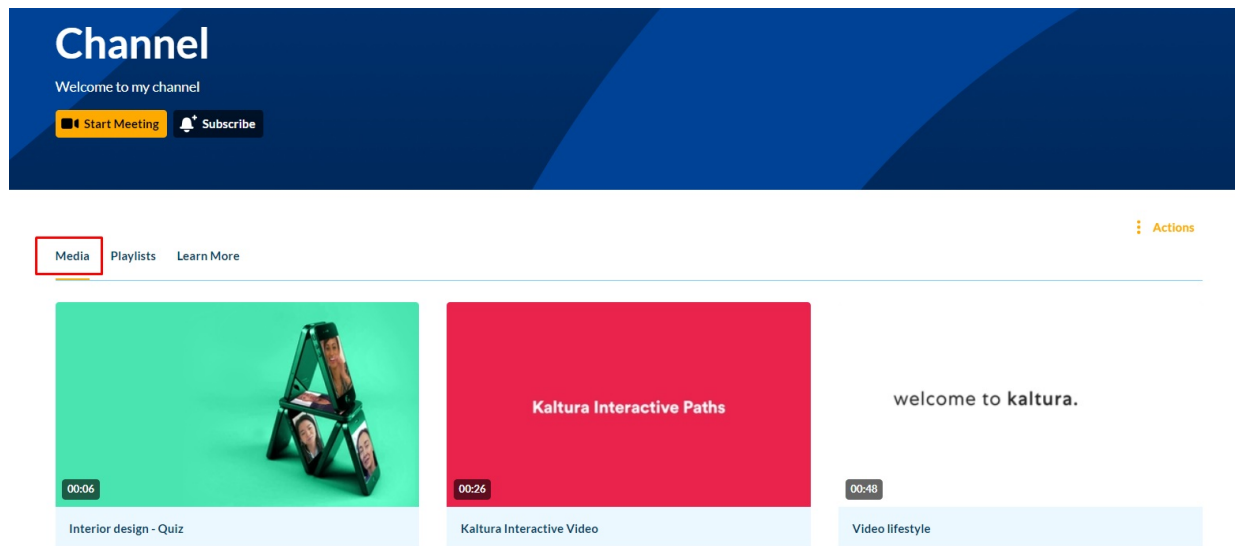

[+ Create Channel](#)

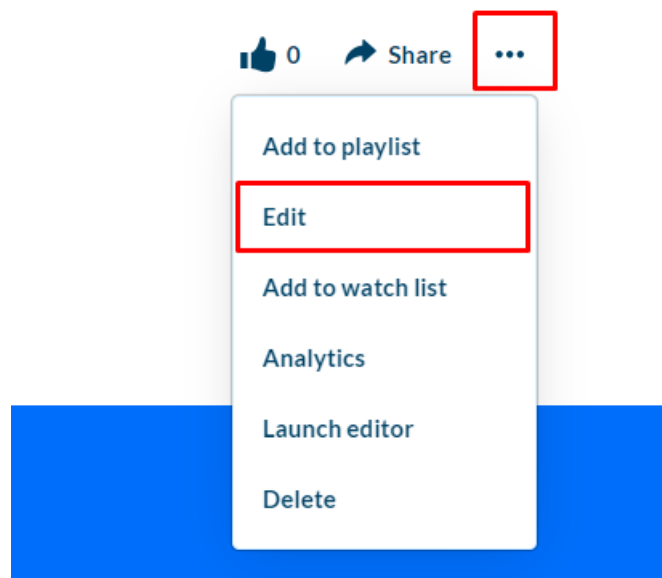

2. Click on a thumbnail to open the desired Channel . The **Channel** page displays.

3. Select the **Media** tab and click on the media you want to remove.

4. Click on the **3 dots** icon and select **Edit** from the drop-down menu.

5. On the media editing page, select the **Publish** tab and set the media to **Private**. This will unpublish the media from all categories/channels and all other applications.

Note - in case you want to keep the media published under other categories/channels that you might have, leave the published status and only uncheck the desired channel to unpublish.

Publish in Category Publish in Channel

Top Channels I Manage

- ☐ Channel with new KME
- ☐ Marketing
- ☒ Channel

More Channels

- ☐ Education
- ☐ Enterprise
- ☐ Soft furnishing design
- ☐ Customization
- ☐ Design school
- ☐ Top projects

6. Click **Save**.

 Removing media from a channel will not delete it from your account. To learn more, see [Delete Media](#), and [Restore items from the Recycle bin](#).
